Plant a tree, grow a mind

TREES INTO CARTONS - CARTONS INTO TREES
Would you like to be part of this project to plant a tree and grow a mind?

This is an exciting opportunity to educate children on the benefits of trees to the earth’s lifecycle and the sustainability of paper-based packaging in the environment.

The project is open to all employees and we would strongly encourage you to contact your TICCIT Ambassador on site for further information on the programme. It has been very successful in the USA and we would like to achieve the same measure of success here in the Europe.

Let’s all play a part in making a better planet for our children.

Your TICCIT Ambassador is
